### 8: COMPRESSOR WITH AIR TANK

350 Points

Designed for the modern adventurer, the Thunder compressor is the perfect solution for enthusiasts with limited space and a need for reliable equipment. With the tank easily separating from the compressor, the unit and tank can be installed independently of each other to maximise storage space when not in use. Featuring an integrated circuit breaker, digital pressure gauge and eight metre polyurethane hose, the compressor produces up to 150 litres of air per minute from the six litre air tank, providing up to 30 minutes continuous operation, inflating tyres and other camping equipment.

### 9: THUNDER TYRE DEFLATOR

60 Points

Rated capacity: 200PSI  
Width: 60mm
